

Growing the Center for Women's Studies

The Center for Women's Studies creates an environment for learning, research, and advocacy. Whether in our backyard or on the opposite side of the world, we are preparing young women and men to understand the impact of gender issues. We are a voice for those with no voice, breaking through walls of oppression and fear, attacking ignorance and apathy.

To keep this voice strong we need a solid support base. One hundred donors giving \$50/month or fifty donors giving \$100/month will enable CWS to facilitate staff and projects that will make a difference. Will you join us? Checks can be sent to:
