

Analysis of Retention and Graduation Rates for 2013-2020

Executive Summary

- The purpose of this report is to 1) review and map trends in retention and graduation rates over the past seven years (2013- 2020), 2) identify "at-risk" student groups and significant factors affecting retention and graduation, and 3) evaluate and support effective intervention programs for retention/graduation.
- Overall retention rate has remained stable at around 82-83% even in the pandemic season: 81.5% this year.
- Commuter retention (82.7%) is higher than the resident retention (80.8%) this year:

 Commuter retention slightly increased by 0.8% while resident retention decreased by 2.8% this year. It was speculated that the **pandemic** did not actually affect the commuter retention but the resident students' retention because of the campus closing.
- **Hispanic retention has grown** for the past three years. This year, Hispanic retention surpassed White retention by 1% (Hispanic: 82.2%, White: 81.2%).
- It should be noted that **Hispanic commuter retention has substantially increased for the past three years** by 9.1% from 2017-18 (75.2%) to 2019-20 (84.3%).
- African American retention decreased again this year (72.3%) by 8% from the last year (80.3%).
- It was speculated that the **pandemic may have affected the female retention slightly more than the male retention.** Overall female retention decreased by 1.4% while overall male retention decreased by 0.5% this year. Also, first-time cohort retention for female decreased by 7.3% while that for male increased 1.5% this year (see page 15 for explanation).
- Six-year graduation rate (2014-2020) this year is 4% higher than that of the last year (2013-2019): 63% (2014 entering cohort) vs. 59% (2013 entering cohort).
- It should be noted that the Hispanic six-year graduation rate increased by 8% this year and the gap between the White and Hispanic cohorts substantially reduced to only 4% [65% (White) vs. 61% (Hispanic)].

Retention Rates

This retention report is for the traditional undergraduate (TUG) students only. Retention rate was calculated for each school year from the Fall 15th day to the 15th day of the following Fall semester (except for 2020 Fall-10th day). It should be noted that the following students were excluded from the retention pool: 1) Students who graduated or were accepted for commencement in the Fall semester of the previous year and the Spring semester or Summer of the following year, and 2) Student-at-large with non-degree. National reporting standards for retention can be found at the following URL: http://www.airweb.org/EducationAndEvents/IPEDSTraining/Tutorials/Pages/default.aspx).

1) Overall Retention

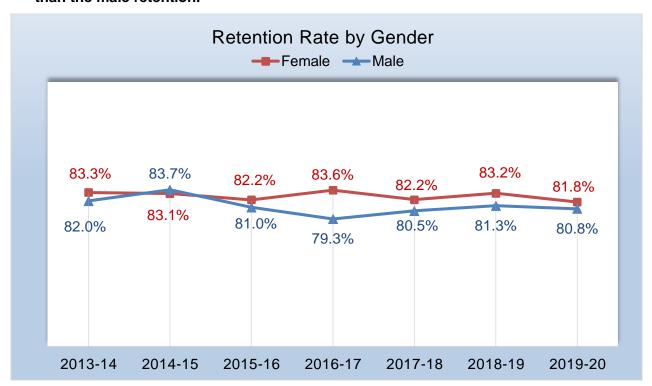

- Vanguard overall retention has remained stable at around 82-83% even in the pandemic season in 2019-20.
- The overall retention this year is 81.5%. It decreased by 1.1% from the last year (82.6%).

| School Year | Retention Pool | Returned | Retention % |
|-------------|----------------|----------|-------------|
| 2013-2014 | 1220 | 1011 | 82.9% |
| 2014-2015 | 1128 | 940 | 83.3% |
| 2015-2016 | 1097 | 897 | 81.8% |
| 2016-2017 | 1118 | 917 | 82.0% |
| 2017-2018 | 1176 | 960 | 81.6% |
| 2018-2019 | 1250 | 1032 | 82.6% |
| 2019-2020 | 1314 | 1071 | 81.5% |

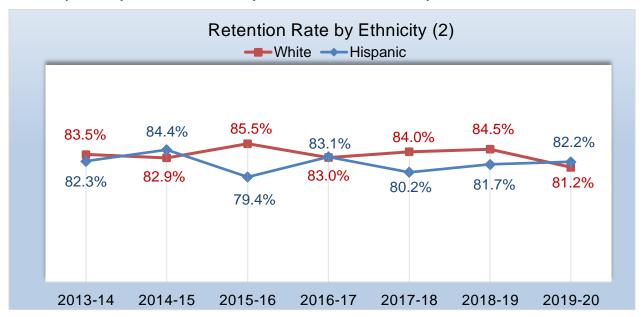

2) Gender

- Female retention decreased by 1.4% while male retention decreased by 0.5% this year from the last year, therefore the gap between the two groups continues to decrease to 1.0% this year from 1.9% last year.
- It was speculated that the pandemic may have affected the female retention slightly more than the male retention.

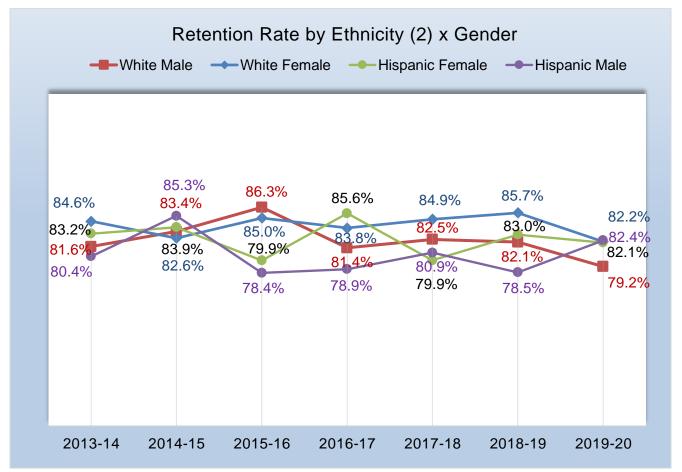

| School Year | Gender | Retention Pool | Returned | Retention % |
|-------------|--------|----------------|----------|-------------|
| 2013-2014 | Female | 803 | 669 | 83.3% |
| | Male | 417 | 342 | 82.0% |
| 2014-2015 | Female | 723 | 601 | 83.1% |
| 2014-2015 | Male | 405 | 339 | 83.7% |
| 2015-2016 | Female | 696 | 572 | 82.2% |
| 2015-2016 | Male | 401 | 325 | 81.0% |
| 2016-2017 | Female | 703 | 588 | 83.6% |
| 2010-2017 | Male | 415 | 329 | 79.3% |
| 2017-2018 | Female | 770 | 633 | 82.2% |
| | Male | 406 | 327 | 80.5% |
| 2040 2040 | Female | 855 | 711 | 83.2% |
| 2018-2019 | Male | 395 | 321 | 81.3% |
| 2040 2020 | Female | 881 | 721 | 81.8% |
| 2019-2020 | Male | 433 | 350 | 80.8% |

- 3) Ethnicity (White & Hispanic)
- **Hispanic retention has grown for the past three years** by 1% from 2017-18 (80.2%) to this year (81.2%).
- This year **Hispanic retention surpassed White retention** by 1%.

| School Year | Ethnicity (2) | Retention Pool | Returned | Retention % |
|-------------|---------------|----------------|----------|-------------|
| 2042 2044 | White | 559 | 467 | 83.5% |
| 2013-2014 | Hispanic | 446 | 367 | 82.3% |
| 2014-2015 | White | 515 | 427 | 82.9% |
| 2014-2015 | Hispanic | 423 | 357 | 84.4% |
| 2045 2046 | White | 504 | 431 | 85.5% |
| 2015-2016 | Hispanic | 417 | 331 | 79.4% |
| 0040 0047 | White | 470 | 390 | 83.0% |
| 2016-2017 | Hispanic | 432 | 359 | 83.1% |
| 2047 2040 | White | 432 | 363 | 84.0% |
| 2017-2018 | Hispanic | 506 | 406 | 80.2% |
| 2018-2019 | White | 419 | 354 | 84.5% |
| | Hispanic | 579 | 473 | 81.7% |
| 0040 0000 | White | 441 | 358 | 81.2% |
| 2019-2020 | Hispanic | 611 | 502 | 82.2% |

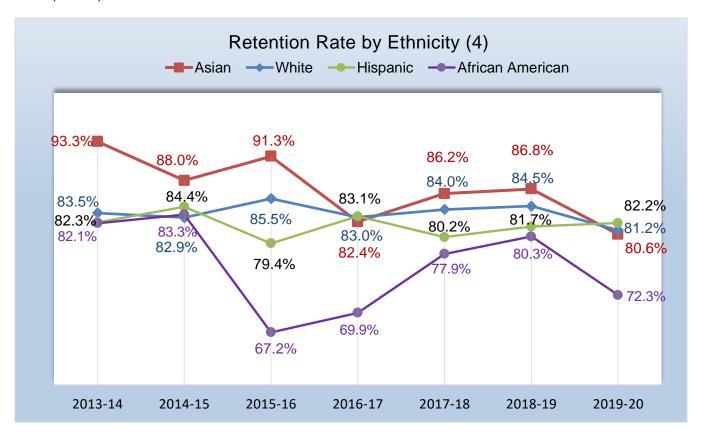

- 4) Ethnicity (White & Hispanic) x Gender
- Hispanic male retention increased by 3.9% while White male retention decreased slightly by 2.9% this year.
- However, there is no significant difference in retention for the four groups.

| School Year | Ethnic x Gender | Retention Pool | Returned | Retention % |
|-------------|-----------------|----------------|----------|-------------|
| | Hispanic Female | 303 | 252 | 83.2% |
| 2042 2044 | Hispanic Male | 143 | 115 | 80.4% |
| 2013-2014 | White Female | 358 | 303 | 84.6% |
| | White Male | 201 | 164 | 81.6% |
| | Hispanic Female | 280 | 235 | 83.9% |
| 2014-2015 | Hispanic Male | 143 | 122 | 85.3% |
| 2014-2015 | White Female | 328 | 271 | 82.6% |
| | White Male | 187 | 156 | 83.4% |
| 2015-2016 | Hispanic Female | 264 | 211 | 79.9% |
| | Hispanic Male | 153 | 120 | 78.4% |
| | White Female | 321 | 273 | 85.0% |
| | White Male | 183 | 158 | 86.3% |

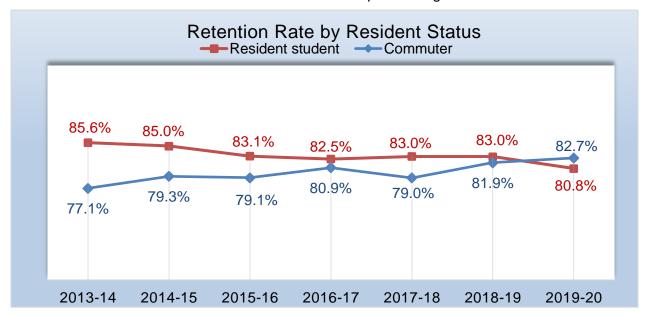

| | Hispanic Female | 271 | 232 | 85.6% |
|-----------|-----------------|-----|-----|-------|
| 2016-2017 | Hispanic Male | 161 | 127 | 78.9% |
| 2010-2017 | White Female | 303 | 254 | 83.8% |
| | White Male | 167 | 136 | 81.4% |
| | Hispanic Female | 344 | 275 | 79.9% |
| 2017-2018 | Hispanic Male | 162 | 131 | 80.9% |
| 2017-2010 | White Female | 278 | 236 | 84.9% |
| | White Male | 154 | 127 | 82.5% |
| | Hispanic Female | 407 | 338 | 83.0% |
| 2018-2019 | Hispanic Male | 172 | 135 | 78.5% |
| 2010-2019 | White Female | 279 | 239 | 85.7% |
| | White Male | 140 | 115 | 82.1% |
| | Hispanic Female | 424 | 348 | 82.1% |
| 2019-2020 | Hispanic Male | 187 | 154 | 82.4% |
| | White Female | 292 | 240 | 82.2% |
| | White Male | 149 | 118 | 79.2% |

- 5) Ethnicity (African American, Asian, Hispanic, and White)
- **African American retention decreased** again this year (72.3%) by 8% from the last year (80.3%).

| School Year | Ethnicity (4) | Retention Pool | Returned | Retention % |
|-------------|------------------|----------------|----------|-------------|
| 2013-2014 | Asian | 30 | 28 | 93.30% |
| | White | 559 | 467 | 83.50% |
| | Hispanic | 446 | 367 | 82.30% |
| | African American | 56 | 46 | 82.10% |
| | Asian | 25 | 22 | 88.00% |
| 2014-2015 | White | 515 | 427 | 82.90% |
| 2014-2015 | Hispanic | 423 | 357 | 84.40% |
| | African American | 48 | 40 | 83.30% |
| | Asian | 23 | 21 | 91.30% |
| 2045 2046 | White | 504 | 431 | 85.50% |
| 2015-2016 | Hispanic | 417 | 331 | 79.40% |
| | African American | 64 | 43 | 67.20% |
| | Asian | 34 | 28 | 82.35% |
| 2242 2247 | White | 470 | 390 | 82.98% |
| 2016-2017 | Hispanic | 432 | 359 | 83.10% |
| | African American | 73 | 51 | 69.86% |
| | Asian | 29 | 25 | 86.21% |
| 0047 0040 | White | 432 | 363 | 84.03% |
| 2017-2018 | Hispanic | 506 | 406 | 80.24% |
| | African American | 68 | 53 | 77.94% |
| | Asian | 38 | 33 | 86.80% |
| | White | 419 | 354 | 84.50% |
| 2018-2019 | Hispanic | 579 | 473 | 81.70% |
| | African American | 61 | 49 | 80.30% |
| | Asian | 62 | 50 | 80.65% |
| 0040 0000 | White | 441 | 358 | 81.18% |
| 2019-2020 | Hispanic | 611 | 502 | 82.16% |
| | African American | 65 | 47 | 72.31% |

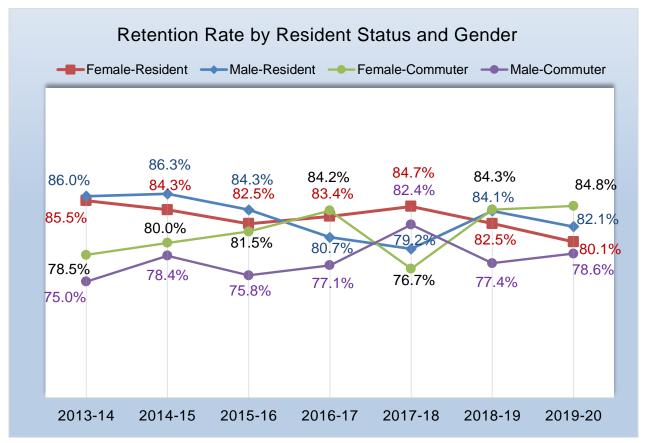

- 6) Resident Status (Commuter & Resident)
- Resident students historically showed higher retention rates than commuter students.
- However, this year commuters showed higher retention (82.7%) than the resident students (80.8%) for the first time: Commuter retention slightly increased by about 0.8% from the last year (81.9%) while resident retention decreased by 2.8% from the last year (83.0%).
- It was speculated that the pandemic this year did not actually affect the commuter retention, but the resident students' retention because of the campus closing.

| School Year | Ethnicity (2) | Retention Pool | Returned | Retention % |
|-------------|---------------|----------------|----------|-------------|
| 0040 0044 | Commuter | 398 | 307 | 77.1% |
| 2013-2014 | Resident | 822 | 704 | 85.6% |
| 2014-2015 | Commuter | 329 | 261 | 79.3% |
| 2014-2015 | Resident | 799 | 679 | 85.0% |
| 2045 2046 | Commuter | 358 | 283 | 79.1% |
| 2015-2016 | Resident | 739 | 614 | 83.1% |
| 2046 2047 | Commuter | 362 | 293 | 80.9% |
| 2016-2017 | Resident | 756 | 624 | 82.5% |
| 2047 2040 | Commuter | 410 | 324 | 79.0% |
| 2017-2018 | Resident | 766 | 636 | 83.0% |
| 2040 2040 | Commuter | 474 | 388 | 81.9% |
| 2018-2019 | Resident | 776 | 644 | 83.0% |
| 2040 2020 | Commuter | 481 | 398 | 82.7% |
| 2019-2020 | Resident | 833 | 673 | 80.8% |

7) Resident Status x Gender

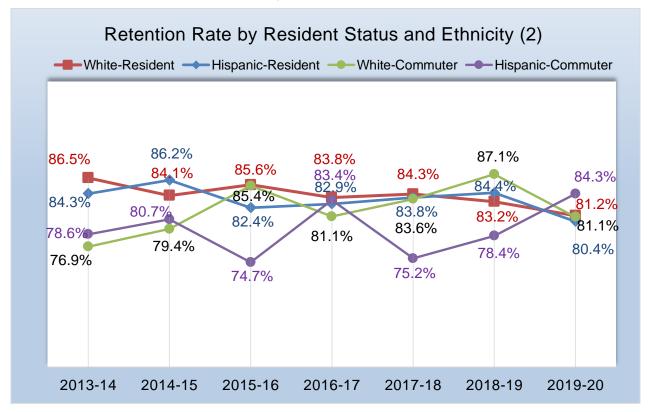

- Male commuter retention rate has been lower than the other three groups' retention rates; this year it increased slightly by 1.2% from 77.4% last year.
- There is no statistically significant difference for the four groups.

| School Year | Resident Status × Gender | Retention Pool | Returned | Retention % |
|-------------|-----------------------------|----------------|----------|-------------|
| | Female-Resident | 557 | 476 | 85.5% |
| 2013-2014 | Male-Resident | 265 | 228 | 86.0% |
| 2013-2014 | Female-Commuter | 246 | 193 | 78.5% |
| | Male-Commuter | 152 | 114 | 75.0% |
| | Female-Resident | 528 | 445 | 84.3% |
| 2014-2015 | Male-Resident | 271 | 234 | 86.3% |
| 2014-2015 | Female-Commuter | 195 | 156 | 80.0% |
| | Male-Commuter | 134 | 105 | 78.4% |
| | Female-Resident | 491 | 405 | 82.5% |
| 2015-2016 | Male-Resident | 248 | 209 | 84.3% |
| | Female-Commuter | 205 | 167 | 81.5% |
| | Male-Commuter | 153 | 116 | 75.8% |

| | Female-Resident | 507 | 423 | 83.4% |
|-----------|-----------------|-----|-----|-------|
| 2046 2047 | Male-Resident | 249 | 201 | 80.7% |
| 2016-2017 | Female-Commuter | 196 | 165 | 84.2% |
| | Male-Commuter | 166 | 128 | 77.1% |
| | Female-Resident | 530 | 449 | 84.7% |
| 2047 2049 | Male-Resident | 236 | 187 | 79.2% |
| 2017-2018 | Female-Commuter | 240 | 184 | 76.7% |
| | Male-Commuter | 170 | 140 | 82.4% |
| | Female-Resident | 549 | 453 | 82.5% |
| 2018-2019 | Male-Resident | 227 | 191 | 84.1% |
| 2010-2019 | Female-Commuter | 306 | 258 | 84.3% |
| | Male-Commuter | 168 | 130 | 77.4% |
| 2040 2020 | Female-Resident | 559 | 448 | 80.1% |
| | Male-Resident | 274 | 225 | 82.1% |
| 2019-2020 | Female-Commuter | 322 | 273 | 84.8% |
| | Male-Commuter | 159 | 125 | 78.6% |

- 8) Resident Status × Ethnicity (Hispanic & White)
- Hispanic commuter retention has substantially increased for the past three years by 9.1% from 75.2% in 2017-18 to 84.3% this year.

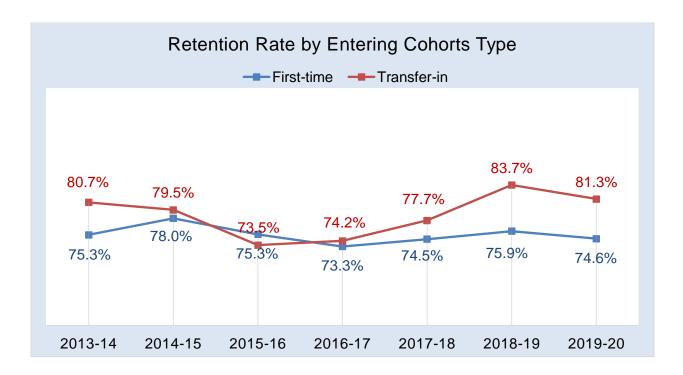

| School Year | Resident Status x Ethnicity (2) | Retention Pool | Returned | Retention % |
|-------------|------------------------------------|----------------|----------|-------------|
| | White-Resident | 386 | 334 | 86.5% |
| 2013-2014 | Hispanic-Resident | 287 | 242 | 84.3% |
| | White-Commuter | 173 | 133 | 76.9% |
| | Hispanic-Commuter | 159 | 125 | 78.6% |
| | White-Resident | 389 | 327 | 84.1% |
| 2014-2015 | Hispanic-Resident | 283 | 244 | 86.2% |
| 2014-2015 | White-Commuter | 126 | 100 | 79.4% |
| | Hispanic-Commuter | 140 | 113 | 80.7% |
| | White-Resident | 360 | 308 | 85.6% |
| 204E 204C | Hispanic-Resident | 255 | 210 | 82.4% |
| 2015-2016 | White-Commuter | 144 | 123 | 85.4% |
| | Hispanic-Commuter | 162 | 121 | 74.7% |
| | White-Resident | 327 | 274 | 83.8% |
| | Hispanic-Resident | 269 | 223 | 82.9% |
| 2016-2017 | White-Commuter | 143 | 116 | 81.1% |
| | Hispanic-Commuter | 163 | 136 | 83.4% |
| | White-Resident | 292 | 246 | 84.3% |
| | Hispanic-Resident | 296 | 248 | 83.8% |
| 2017-2018 | White-Commuter | 140 | 117 | 83.6% |
| | Hispanic-Commuter | 210 | 158 | 75.2% |
| | White-Resident | 280 | 233 | 83.2% |
| | Hispanic-Resident | 315 | 266 | 84.4% |
| 2018-2019 | White-Commuter | 139 | 121 | 87.1% |
| | Hispanic-Commuter | 264 | 207 | 78.4% |
| | White-Resident | 309 | 251 | 81.2% |
| | Hispanic-Resident | 337 | 271 | 80.4% |
| 2019-2020 | White-Commuter | 132 | 107 | 81.1% |
| | Hispanic-Commuter | 274 | 231 | 84.3% |

- 9) Entering Cohort Type (First-time, Transfer-in)
- First-time: A student who has no prior postsecondary experience attending any institution for the first time at the undergraduate level. It includes students enrolled in the fall term who attended college for the first time in the prior summer term, and students who entered with advanced standing, such as college credits or postsecondary formal award earned before graduation from high school (IPEDS definition).
- Transfer-in: A student entering for the first time but known to have previously attended a
 postsecondary institution at the same level (e.g., undergraduate). This includes new students
 enrolled in the fall term who transferred into the institution the prior summer term (IPEDS
 definition).
- This analysis included the **entering cohort of each year seeking a bachelor's degree only** following the IPEDS survey definition.
- The two cohorts include both full-time and part-time.

• First-time vs. Transfer-in

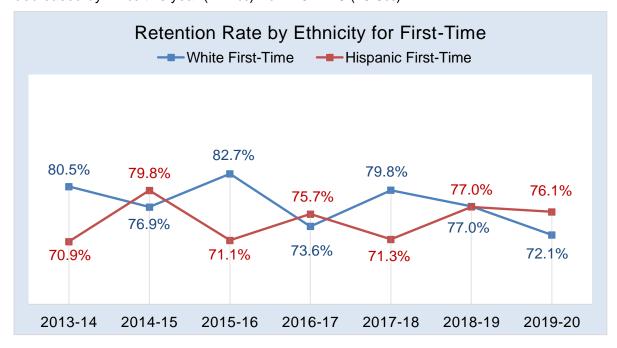

- The retention rates of both first-time and transfer-in cohorts slightly decreased this year by 1.3% and 2.4%, respectively, from the last year.
- Transfer-in cohort has maintained higher retention than the first-time cohort for the past four years. However, the difference between the two cohorts is not statistically significant.

| School Year | Cohort Type | Retention Pool | Returned | Retention % |
|-------------|-------------|----------------|----------|-------------|
| 0040 0044 | First-time | 392 | 295 | 75.3% |
| 2013-2014 | Transfer-in | 109 | 88 | 80.7% |
| 2014-2015 | First-time | 314 | 245 | 78.0% |
| 2014-2015 | Transfer-in | 112 | 89 | 79.5% |
| 2045 2046 | First-time | 373 | 281 | 75.3% |
| 2015-2016 | Transfer-in | 102 | 75 | 73.5% |
| 2046 2047 | First-time | 408 | 299 | 73.3% |
| 2016-2017 | Transfer-in | 97 | 72 | 74.2% |
| 2047 2049 | First-time | 432 | 322 | 74.5% |
| 2017-2018 | Transfer-in | 103 | 80 | 77.7% |
| 0040 0040 | First-time | 460 | 349 | 75.9% |
| 2018-2019 | Transfer-in | 104 | 87 | 83.7% |
| 2040 2020 | First-time | 481 | 359 | 74.6% |
| 2019-2020 | Transfer-in | 112 | 91 | 81.3% |

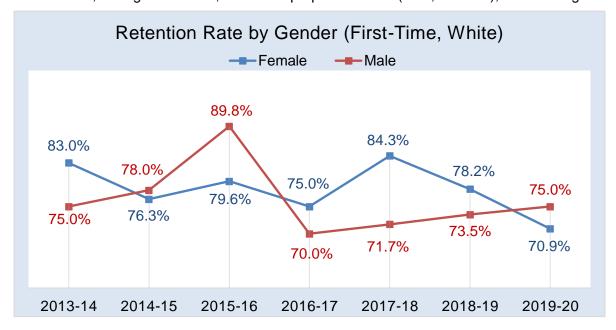

• White vs. Hispanic for First-Time

- Within the first-time cohort, White and Hispanic retentions tended to fluctuate in opposite directions in the past: As White retention increased, Hispanic retention decreased and vice versa.
- However, both groups' retention decreased this year. Especially, White first-time retention decreased by 7.7% this year (72.1%) from 2017-18 (79.8%).

| School Year | Cohort Type | Retention Pool | Returned | Retention % |
|-------------|---------------------|-------------------|----------|-------------|
| 0040 0044 | White First-time | 164 | 132 | 80.5% |
| 2013-2014 | Hispanic First-time | 172 | 122 | 70.9% |
| 2014-2015 | White First-time | 143 | 110 | 76.9% |
| 2014-2013 | Hispanic First-time | 119 | 95 | 79.8% |
| 2045 2040 | White First-time | 162 | 134 | 82.7% |
| 2015-2016 | Hispanic First-time | 142 | 101 | 71.1% |
| 2046 2047 | White First-time | 140 | 103 | 73.6% |
| 2016-2017 | Hispanic First-time | 177 | 134 | 75.7% |
| 0047 0040 | White First-time | 129 | 103 | 79.8% |
| 2017-2018 | Hispanic First-time | 216 | 154 | 71.3% |
| 0040 0040 | White First-time | 135 | 104 | 77.0% |
| 2018-2019 | Hispanic First-time | 243 | 187 | 77.0% |
| 2040 2020 | White First-time | 154 | 111 | 72.1% |
| 2019-2020 | Hispanic First-time | 226 | 172 | 76.1% |

- It was observed that the decrease in the White first-time retention this year was likely due to the substantial decrease (7.3%) in the female retention while the male retention increased by 1.5%.
- No significant difference was found between the male and female White first-time cohorts in commuter%, First generation%, academic preparedness% (SAT, HSGPA), and PELL grant%.

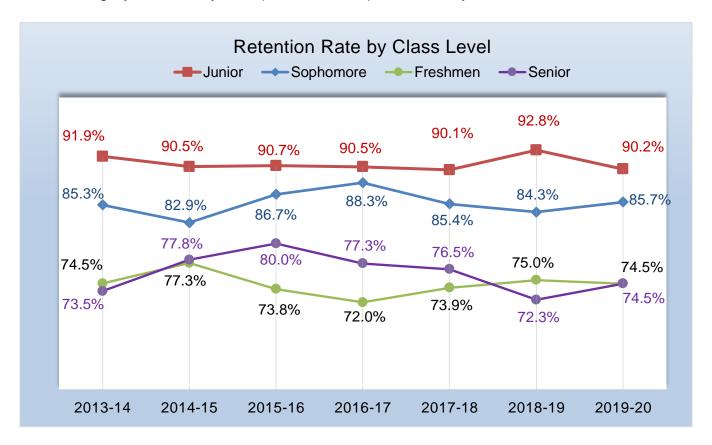

- However, it was found that **more females (8.2%) than males (2.3%)** for the White first-time cohort said "I have seriously contemplated pausing current education due to financial reasons" in the COVID-related survey in 2020 spring.
- It appeared that the pandemic may have affected the female retention more than the male retention for this cohort again as in the overall female retention in p. 3. However, more examination especially for the White female first-time cohort because its retention has decreased for the past three years: from 84.3% in 2017-18 to 70.9% this year (see the graph above).
- The retention rate of the first-time entering cohort is particularly important because it is one of the primary indices measuring student success according to the National Center for Education Statistics (NCES).

| School Year | Cohort Type | Retention Pool | Returned | Retention % |
|-------------|-------------------------|-------------------|----------|-------------|
| 2042 2044 | Female White First-time | 112 | 93 | 83.0% |
| 2013-2014 | Male White First-time | 52 | 39 | 75.0% |
| 2014-2015 | Female White First-time | 93 | 71 | 76.3% |

10) Class Level

- This year, junior retention decreased by 2.6% (92.8% to 90.2%) while sophomore retention slightly increased by 1.4% (84.3% to 85.7%) from the last year.

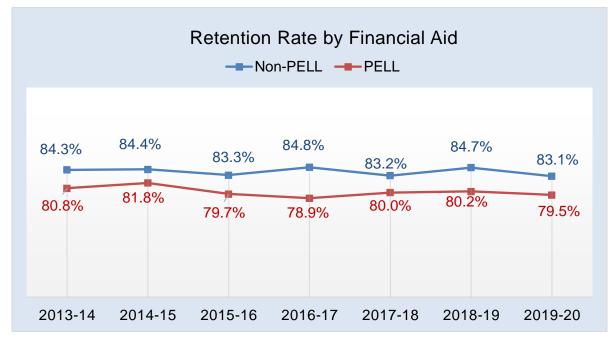

| School Year | Class Level | Retention Pool | Returned | Retention % |
|-------------|-------------|----------------|----------|-------------|
| 2013-2014 | Freshman | 428 | 319 | 74.5% |
| | Sophomore | 408 | 348 | 85.3% |
| | Junior | 335 | 308 | 91.9% |
| | Senior | 49 | 36 | 73.5% |
| 2014-2015 | Freshman | 353 | 273 | 77.3% |
| | Sophomore | 362 | 300 | 82.9% |
| | Junior | 359 | 325 | 90.5% |
| | Senior | 54 | 42 | 77.8% |
| 2015-2016 | Freshman | 484 | 357 | 73.8% |
| | Sophomore | 279 | 242 | 86.7% |
| | Junior | 289 | 262 | 90.7% |
| | Senior | 45 | 36 | 80.0% |
| 2016-2017 | Freshman | 442 | 318 | 72.0% |
| | Sophomore | 326 | 288 | 88.3% |

| | Junior | 306 | 277 | 90.5% |
|-----------|-----------|-----|-----|-------|
| | Senior | 44 | 34 | 77.3% |
| 2017-2018 | Freshman | 472 | 349 | 73.9% |
| | Sophomore | 350 | 299 | 85.4% |
| | Junior | 303 | 273 | 90.1% |
| | Senior | 51 | 39 | 76.5% |
| 2018-2019 | Freshman | 480 | 360 | 75.0% |
| | Sophomore | 389 | 328 | 84.3% |
| | Junior | 334 | 310 | 92.8% |
| | Senior | 47 | 34 | 72.3% |
| 2019-2020 | Freshman | 569 | 424 | 74.5% |
| | Sophomore | 392 | 336 | 85.7% |
| | Junior | 306 | 276 | 90.2% |
| | Senior | 47 | 35 | 74.5% |

11) PELL Grant

- PELL grant is one of the most widely used indicators of the socio-economic status (SES).
- PELL recipients have maintained lower retention rates than the Non-PELL recipients.

 However, there is no statistically significant difference between the two groups in retention.

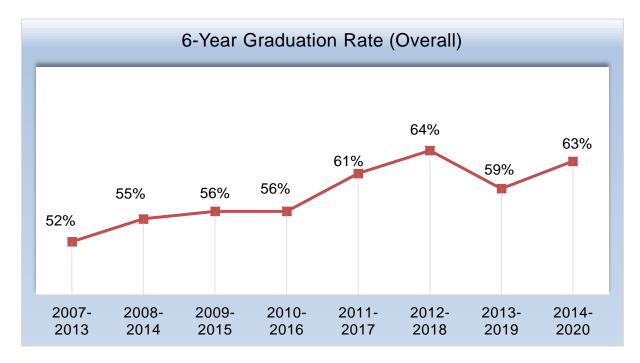

| School Year | Cohort Type | Retention Pool | Returned | Retention % |
|-------------|-------------|----------------|----------|-------------|
| 2013-2014 | Non-PELL | 725 | 611 | 84.3% |
| | PELL | 495 | 400 | 80.8% |
| 2014-2015 | Non-PELL | 672 | 567 | 84.4% |
| | PELL | 456 | 373 | 81.8% |
| 2015-2016 | Non-PELL | 618 | 515 | 83.3% |
| | PELL | 479 | 382 | 79.7% |
| 2016-2017 | Non-PELL | 592 | 502 | 84.8% |
| | PELL | 526 | 415 | 78.9% |
| 2017-2018 | Non-PELL | 631 | 525 | 83.2% |
| | PELL | 544 | 435 | 80.0% |
| 2018-2019 | Non-PELL | 649 | 550 | 84.7% |
| | PELL | 601 | 482 | 80.2% |
| 2019-2020 | Non-PELL | 724 | 602 | 83.1% |
| | PELL | 590 | 469 | 79.5% |

II. Graduation Rates

6-year graduation rates were analyzed for the **full-time**, **first-time entering cohorts seeking a bachelor's degree only** (IPEDS definition).

1) Overall

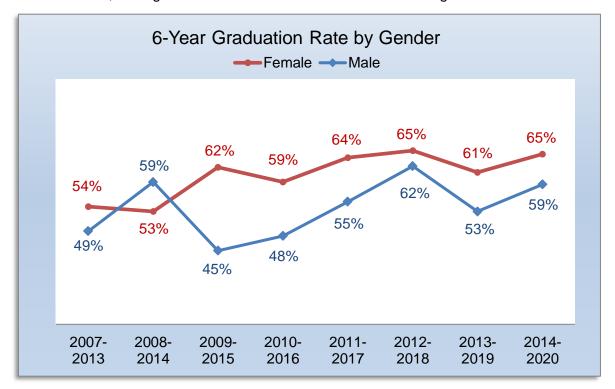

- Six-year graduation rate of the 2014 entering cohort this year (63%) is 4% higher than that of the 2013 entering cohort (59%) last year.
- The lower graduation rate of the 2013 cohort was likely due to their lower first-year retention rate (75.3%, See the "First-time" line in the graph p. 12.)
- Therefore, it was expected that the graduation rate of the 2014 cohort would be higher than that of the 2013 cohort because the retention rate of the 2014 first-time entering cohort was higher (78.0%).

| Entering- Graduating | Cohort total | Graduated | Graduation Rate |
|----------------------|--------------|-----------|-----------------|
| 2007-2013 | 367 | 192 | 52% |
| 2008-2014 | 299 | 164 | 55% |
| 2009-2015 | 261 | 146 | 56% |
| 2010-2016 | 334 | 186 | 56% |
| 2011-2017 | 397 | 242 | 61% |
| 2012-2018 | 435 | 280 | 64% |
| 2013-2019 | 390 | 229 | 59% |
| 2014-2020 | 313 | 196 | 63% |

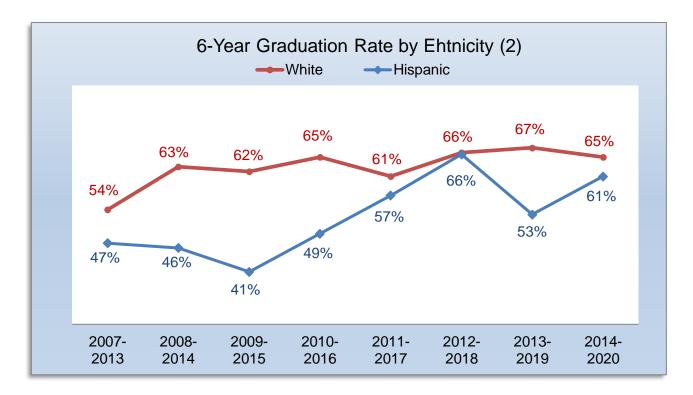

2) Gender

- Graduation rates of both genders of 2014 cohort are higher than those of the 2013 cohort by 4% for female and 6% for male, respectively.
- Also, male graduation rate is 6% lower than the female graduation rate

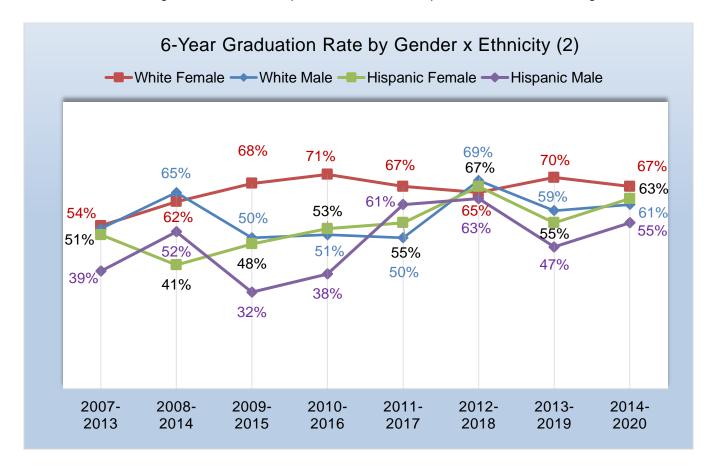

| Entering- Graduating | Gender | Cohort total | Graduated | % |
|-------------------------|--------|--------------|-----------|-----|
| 2007-2013 | Female | 232 | 126 | 54% |
| 2007-2013 | Male | 135 | 66 | 49% |
| 2008-2014 | Female | 205 | 109 | 53% |
| 2000-2014 | Male | 94 | 55 | 59% |
| 2009-2015 | Female | 162 | 101 | 62% |
| 2009-2013 | Male | 99 | 45 | 45% |
| 2010-2016 | Female | 234 | 138 | 59% |
| 2010-2010 | Male | 100 | 48 | 48% |
| 2011-2017 | Female | 271 | 173 | 64% |
| 2011-2017 | Male | 126 | 69 | 55% |
| 2012 2019 | Female | 292 | 191 | 65% |
| 2012-2018 | Male | 143 | 89 | 62% |
| 2012 2010 | Female | 273 | 167 | 61% |
| 2013-2019 | Male | 117 | 62 | 53% |
| 2014 2020 | Female | 207 | 134 | 65% |
| 2014-2020 | Male | 106 | 62 | 59% |

- 3) Ethnicity (White and Hispanic)
- **Hispanic graduation rate increased by 8%** for the 2014 entering cohort (61%) compared to the 2013 cohort (53%). The gap between the White and Hispanic cohorts substantially reduced for the 2014 cohort: 65% of White vs. 61% of Hispanic.

| Entering- Graduating | Ethnicity (2) | Cohort total | Graduated | % |
|-------------------------|---------------|--------------|-----------|-----|
| 2007-2013 | Hispanic | 55 | 26 | 47% |
| 2007-2013 | White | 256 | 137 | 54% |
| 2008-2014 | Hispanic | 57 | 26 | 46% |
| 2006-2014 | White | 188 | 118 | 63% |
| 2009-2015 | Hispanic | 58 | 24 | 41% |
| 2009-2013 | White | 159 | 98 | 62% |
| 2010-2016 | Hispanic | 101 | 49 | 49% |
| 2010-2010 | White | 165 | 108 | 65% |
| 2011-2017 | Hispanic | 122 | 69 | 57% |
| 2011-2017 | White | 215 | 132 | 61% |
| 2042 2040 | Hispanic | 157 | 103 | 66% |
| 2012-2018 | White | 185 | 122 | 66% |
| 2042 2040 | Hispanic | 172 | 91 | 53% |
| 2013-2019 | White | 162 | 108 | 67% |
| 2014 2020 | Hispanic | 120 | 73 | 61% |
| 2014-2020 | White | 162 | 105 | 65% |

- 4) Gender x Ethnicity (White and Hispanic)
 - White female entering cohort showed a slight decrease, but the other three groups
 (White & Hispanic male, Hispanic female) of the 2014 entering cohort showed increases in the graduation rate compared to their counterparts in the 2013 entering cohort.

| Entering- Graduating | Ethnicity (2) × Gender | Cohort total | Graduated | % |
|-------------------------|---------------------------|--------------|-----------|-----|
| | White Female | 155 | 83 | 54% |
| 2007 2042 | White Male | 101 | 54 | 53% |
| 2007-2013 | Hispanic Female | 37 | 19 | 51% |
| | Hispanic Male | 18 | 7 | 39% |
| | White Female | 133 | 82 | 62% |
| 2008-2014 | White Male | 55 | 36 | 65% |
| 2006-2014 | Hispanic Female | 34 | 14 | 41% |
| | Hispanic Male | 23 | 12 | 52% |
| | White Female | 103 | 70 | 68% |
| 2009-2015 | White Male | 56 | 28 | 50% |
| | Hispanic Female | 33 | 16 | 48% |
| | Hispanic Male | 25 | 8 | 32% |

| | White Female | 118 | 84 | 71% |
|------------|-----------------|-----|----|-----|
| 0040 0040 | White Male | 47 | 24 | 51% |
| 2010-2016 | Hispanic Female | 72 | 38 | 53% |
| | Hispanic Male | 29 | 11 | 38% |
| | White Female | 141 | 95 | 67% |
| 2011 2017 | White Male | 74 | 37 | 50% |
| 2011-2017 | Hispanic Female | 89 | 49 | 55% |
| | Hispanic Male | 33 | 20 | 61% |
| | White Female | 127 | 82 | 65% |
| 2012-2018 | White Male | 58 | 40 | 69% |
| 2012-2010 | Hispanic Female | 109 | 73 | 67% |
| | Hispanic Male | 48 | 30 | 63% |
| | White Female | 111 | 78 | 70% |
| 2013-2019 | White Male | 51 | 30 | 59% |
| 2013-2019 | Hispanic Female | 121 | 67 | 55% |
| | Hispanic Male | 51 | 24 | 47% |
| | White Female | 105 | 70 | 67% |
| 204.4.2020 | White Male | 57 | 35 | 61% |
| 2014-2020 | Hispanic Female | 82 | 52 | 63% |
| | Hispanic Male | 38 | 21 | 55% |

- III. Retention and Relational Factors (Kim, Kim, Praslova, Lebrecht, Ziegler, & Sales, 2020)
 - Student retention is often attributed to student factors (e.g., GPA, finances) and institutional factors (e.g., quality of instruction, campus support services). However, it was hypothesized that **relational factors** (**caring for students, sense of welcoming, and quality of interaction**) could be a key to retention. Previous studies support our hypothesis: any **community caring** for their members will retain them (Tinto, 1993); "**Relentless welcome**" is what students need and want throughout their time in higher education (Felten, 2019); **student-faculty interaction** has a strong effect on student satisfaction with the college experience than any other factors (Astin, 1993). Our hypothesis was tested using data from the 2014 and 2018 National Survey of Student Engagement (NSSE) and the 2016 and 2019 Noel-Levitz Student Satisfaction Inventory (SSI). The sample consists of 1158 Vanguard traditional undergraduate students.
 - Of all ten NSSE constructs, Quality of Interactions was the only construct that showed a
 significant correlation (<.05) with the students' return intentions, "Do you intend to return to this
 institution next year?" Additional NSSE questions focused on students-centeredness (sense of
 belonging, feeling comfortable and valued) also had significant correlations (<.001) with the
 return intention.
 - Analysis of SSI data further supported our hypothesis. Student Centeredness and Campus
 Climate categories, as well as Sense of Belonging items, showed the highest positive correlations
 with the retention item, "All in all, if you had to do it over again, would you enroll here?" than other
 categories (Campus Life, Instructional Effectiveness, Recruitment and Financial Aid, Campus
 Support Services, Academic Advising, Registration Effectiveness, Service Excellence,
 Responsiveness to Diverse Populations).
 - Additionally, the correlations between all the 89 SSI items (2019 spring) and the actual 2018-2019 student retention were examined. First, of all the categories of the items, **Student Centeredness** showed the highest positive correlation with the actual retention (<.05) than other categories.
 Second, followings are some of the individual items which showed significant correlations (<.05):
 - #1. Most students feel a sense of belonging here.
 - #3. Faculty care about me as an individual.
 - #13. Library staff are helpful and approachable.
 - #34. I am able to register for classes I need with few conflicts.
 - #39. I am able to experience intellectual growth here.
 - #45. Students are made to feel welcome on this campus.
 - #47. Faculty provide timely feedback about student progress in a course.
 - #58. The quality of instruction I receive in most of my classes is excellent.

- #59. This institution shows concern for students as individuals.
- #65. Faculty are usually available after class and during office hours.
- #69. There is a good variety of courses provided on this campus.
- #75. Campus item: My understanding of God is being strengthened by classroom and/or campus experiences.
- #79. Campus item: Given where I am spiritually right now, this campus is a good "fit" for me.
- In conclusion, the results above clearly showed that the relational factors (caring for students, sense of welcoming, and quality of interaction) are key retention factors for Vanguard campus. These findings are aligned with the core motives framework in which belonging is the key human motivational force (Fiske, 2019). We need to contextualize these findings within campus culture so faculty and staff can continue to "create a relentless welcome" (Felten, 2019) through their regular interaction with students.
- See the infographic for this study here:
