ABOUT GLOBAL CENTER FOR WOMEN AND JUSTICE

OUR MISSION

The Global Center for Women & Justice at Vanguard University faith-based organization that exists to advance the global status of women through research, education, advocacy, collaboration and hope. The Global Center for Women & Justice promotes gender reconciliation and the inherent dignity of all persons.

OUR VISION

As an academic center, GCWJ is committed to developing educational resources to promote best practice and data-driven decision making and serving our community as a clearinghouse for information on women's issues in a multidisciplinary approach.

RESEARCH AND EDUCATION

As an academic center, the Global Center for Women and Justice at Vanguard University is committed to best practice, promoting data-driven decision making and acting as a clearinghouse for information on women's issues.

We serve to expand the knowledge-base of women's issues by professors and students working together to conduct and share research. We also have an inter-disciplinary minor in Women's Studies, one of the first at a Christian university, to provide Vanguard students with a theoretical and practical foundation to improve the lives of women and their communities here and around the world. We also present the annual Ensure Justice conference each spring to elevate awareness for women's rights, domestic violence, human trafficking and the exploitation of children. Vanguard is truly leading the way in Christian education that impacts culture and society.

ADVOCACY & COLLABORATION: SERVING OC AND BEYOND

The Global Center for Women and Justice impacts culture and society – locally and globally – as we undertake cutting-edge research, host lectures and conferences, provide training and technical assistance, and support projects such as the award-winning documentary film, *Sin by Silence*, and the Frontline Summit against child sexual exploitation with more than 100 child-serving professionals in attendance. GCWJ has built a partnership with University of Duhok, Iraq to build capacity for women's studies that will impact future generations. GCWJ is an advocate for issues of human oppression and justice around the world in Iraq, Libya, Argentina, Romania, and the United Nations.
